1.0 INTRODUCTION

- 1.1 In this policy we outline the broad principles that we will use to procure works, services, and supplies.
- 1.2 We do not anticipate spending a lot of money on works, supplies, and services, so our policy is succinct, but proportionate to the scope and extent of the procurement activities we undertake currently and expect to do for the foreseeable future, and 'fit for purpose'.

2.0 POLICY OBJECTIVES

- 2.1 Through the implementation of this policy, we aim to meet the following objectives:-
 - Compliance with our legal obligations in respect of the process of procuring works, services, and supplies.
 - Secure 'value for money' for the Association through the procurement process.
 - Ensure our procurement methodology is effective and proportionate.
 - To establish and record how the Association will procure each works, service, and supply item.
- 2.2 Our main aim is to establish procurement processes that are transparent, fair and equitable for each and every purchase of works, supplies and services that we make.

3.0 LEGAL OBLIGATIONS AND GOOD PRACTICE

Legal framework

- 3.1 As a Registered Social Landlord, in terms of the procurement of works, services, and supplies, North View Housing Association must comply with the Application of the Public Contracts (Scotland) Regulations 2015, the Procurement Reform (Scotland) Act 2014, and the Procurement (Scotland) Regulations 2016.

POLICY

PROCUREMENT

3.2 The Scottish Regulations support the pre-Brexit European Union (EU) Regulations, and enshrined them in Scots Law. Post Brexit from 31st January 2020, The UK have replaced the European Union (EU) Regulations with UK (GPA) Regulations.

3.3 The legislation covers the procurement of works, services, and supplies.

'Works' are defined as being activities like construction of new houses, demolition of existing buildings, and reactive repairs; 'services' cover activities like consultants services, grass cutting, and servicing gas boilers; and supplies are to do with the buying or leasing of goods, and/or materials e.g. the purchase of photocopy paper for the Office.

3.4 All contracts, awarded by the Association, fall within the scope of the Scottish Government Regulations, or the UK (GPA) Regulations when they exceed certain cost thresholds. The Scottish thresholds are exclusive of VAT, however the GPA thresholds include VAT. Both thresholds are discussed below.

UK (GPA) Regulated Contracts

3.5 The **UK**, like the European Union (EU), currently sets the WTO GPA thresholds for 'Work' contracts, 'Service' contracts, and 'Supplies' contracts. If we plan to carry out activities that will exceed these thresholds, then we have to comply with UK regulation and processes for letting such contracts. Contracts for works exceeding the threshold are known as 'UK GPA Regulated Contracts'.

3.6 The WTO GPA (UK) thresholds are reviewed every 2 years; at the time of writing, the 'Work' contracts threshold is set at works in excess of £5,336,937 (inc VAT) , and the 'Service' contracts threshold is for services exceeding £213,447 (inc VAT). £213,447 (inc VAT) is also the threshold for the value of 'Supplies' contracts. Updates to the thresholds are posted on www.publiccontractscotland.gov.uk.

3.7 If we procure a contract that covers two of the elements of 'Works', 'Services' and 'Supplies', then the lower threshold value will apply i.e. £213,447 (inc VAT). Similarly should that contract cover all three elements, the lowest threshold applies, again, £213,447 (inc VAT).

3.8 Committee will determine the procurement methodology for these types of contract, but it will be set within the procurement framework dictated by the UK regulations.

POLICY

PROCUREMENT

- 3.9 If we anticipate that the value of any contact (or the cumulative year on year cost) will exceed the cost thresholds in the regulations, we have to procure the contract in accordance with procedures set out in the regulations, including the requirement to adequately advertise the contract, nationally and optionally throughout Europe. We comply with all these advertising requirements by posting notice of the contract via the Public Contract Scotland website (www.publiccontractsscotland.gov.uk), but we have to ensure that we allow the required 'lead in' time before appointment.

Scottish Government Regulated Contracts

- 3.10 The Scottish Government's Regulations require that Registered Social Landlords should ensure a degree of (appropriate) advertising which is sufficient to enable open competition and meet the principles of equality, non-discrimination, transparency and proportionality.
- 3.11 The Regulations also make it mandatory that Registered Social Landlords widely advertise contracts (of works, services, and supplies) where the value of any contract (or the cumulative year on year cost) is more than £50,000 (exc VAT) for services or supplies, and £2million (exc VAT) for works.

To comply with this, we advertise Scottish Government Regulated Contracts on the Public Contract Scotland website (www.publiccontractsscotland.gov.uk).

- 3.12 If the cumulative projected value of a service or supply contract over a continuous period of five years exceeds £50,000 (exc VAT), the Association will treat that contract as similar to a Scottish Government Regulated Contract and procure it accordingly.
- 3.13 If we procure a contract that covers two of the elements of 'Works', 'Services' and 'Supplies', then the lower threshold value will apply i.e. £50,000 (exc VAT). Similarly should that contract cover all three elements, the lowest threshold applies, again, £50,000 (exc VAT).
- 3.14 Committee will determine the procurement methodology for these types of contract, but it will be set within the procurement framework dictated by the Scottish Government.
